How can we help ?

DNV Manufacturing Capabilities

- **Custom Container Fabrication:** Design and manufacture of DNV 2.7-1 and DNV 2.7-2 certified containers for offshore and industrial use.
- **Basket Fabrication:** Manufacturing of DNV 2.7-1 and DNV 2.7-2 certified baskets for the secure storage and transport of equipment.
- **Frame Fabrication:** Construction of frames and structural supports to meet DNV 2.7-1 and DNV 2.7-2 standards.
- **Wireline Workshop Fabrication:** Design and fabrication of wireline workshops, including custom layouts and equipment storage solutions including ZONE 2 certification.
- **Testing Workshop Fabrication:** Creation of testing workshops equipped for conducting various types of equipment testing, including hydraulic and mechanical testing including Zone 2 certification.
- **Container and Workshop Modifications:** Custom modifications to existing containers and workshops to meet specific client needs or regulatory requirements.
- **Assembly and Integration:** Assembly of containers, baskets, frames, and workshops, including the integration of components and systems.
- **Coating and Finishing:** Application of protective coatings and finishes to enhance durability and corrosion resistance.
- **Certification and Compliance:** Ensuring that all fabricated products meet DNV 2.7-1 and DNV 2.7-2 certification standards and regulatory requirements.
- **Design and Engineering Support:** Assistance with the design and engineering of custom solutions based on client specifications and operational requirements.
- **Prototype Development:** Fabrication of prototypes for testing and validation of new designs or modifications.
- **Inspection and Testing:** Conducting thorough inspections and tests to ensure products meet all safety, quality, and performance standards.
- **Maintenance and Repair Services:** Providing repair and maintenance services for DNV 2.7-1 and DNV 2.7-2 containers, baskets, and workshops.
- **Project Management:** Overseeing the fabrication process from design through to delivery, including coordination of all project phases.
- **Logistics and Delivery:** Managing the logistics of transporting fabricated containers, baskets, and workshops to their final destination.

DNV RANGE

8' Tall Mini Container

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 1,830mm x W 1,830mm x H 2,438mm
Tare – 1,400kg
Gross Weight – 5,400kg
Payload – 4,000kg

9' Tall Mini Container

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 1,830mm x W 1,830mm x H 2,743mm
Tare – 1,650kg
Gross Weight – 5,650kg
Payload – 4,000kg

10' Tall Mini Container

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 1,753mm x W 2,015mm x H 3,220mm
Tare – 1,730kg
Gross Weight – 6,730kg
Payload – 5,000kg

10' Offshore Dry Van

Slings Included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 2,991mm x W 2,438mm x H 2,591mm
Tare – 2,250kg
Gross Weight – 10,250kg
Payload – 8,000kg

10' Offshore Open Top

Slings Included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 2,991mm x W 2,438mm x H 2,591mm
Tare – 2,250kg
Gross Weight – 10,000kg
Payload – 7,750kg

20' Offshore Dry Van

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 6,058mm x W 2,438mm x H 2,591mm
Tare – 3,800kg
Gross Weight – 20,000kg
Payload – 16,200kg

20' Offshore Open Top

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 6,058mm x W 2,438mm x H 2,591mm
Tare – 3,700kg
Gross Weight – 19,700kg
Payload – 16,000kg

10' Offshore Half Height

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 2,991mm x W 2,438mm x H 1,280mm
Tare 1,380KG
Gross Weight – 9,320kg
Payload 7940kg

20' Offshore Half Height

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 6,058mm x W 2,438mm x H 1,280mm
Tare – 3,600kg
Gross Weight – 20,000kg
Payload – 16,400kg

6' Offshore Cargo Basket

Slings included.
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 1,830mm x W 1,200mm x H 950mm
Tare – 530kg
Gross Weight – 5,530kg
Payload – 5,000kg

10' Offshore Cargo Basket

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 2,970mm x W 1,052mm x H 1,106mm
Tare – 790kg
Gross Weight – 6,790kg
Payload – 6,000kg

12' Offshore Cargo Basket

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 3,658mm x W 1,200mm x H 1,100mm
Tare – 950kg
Gross Weight – 6,950kg
Payload – 6,000kg

26' Offshore Cargo Basket

Slings included.
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 8,300mm x W 1,200mm x H 1,100mm
Tare – 2,250kg
Max Gross Weight – 12,250kg
Max Payload – 10,000kg

32' Offshore Cargo Basket

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 10,300mm x W 1,200mm x H 1,100mm
Tare – 2,600kg
Gross Weight – 12,600kg
Payload – 10,000kg

39' Offshore Cargo Basket

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 11,900mm x W 1,200mm x H 1,100mm
Tare – 3,000kg
Gross Weight – 13,000kg
Payload – 10,000kg

43' Offshore Cargo Basket

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 13,100mm x W 1,200mm x H 1,100mm
Tare – 3,200kg
Gross Weight – 13,200kg
Payload – 10,000kg

50' Offshore Cargo Basket

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 15,800mm x W 1,200mm x H 1,100mm
Tare – 4,400kg
Gross Weight – 16,400kg
Payload – 12,000kg

60' Offshore Cargo Basket

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 18,200mm x W 1,200mm x H 1,100mm
Tare – 4,900kg
Gross Weight – 16,900kg
Payload – 12,000kg

70' Offshore Cargo Basket

Slings included
Colour: TBA
Bureau Veritas DNV 2.7-1 Certified
L 21,300mm x W 1,200mm x H 1,100mm
Tare – 5,600kg
Gross Weight – 16,600kg
Payload – 11,000kg

Oilfield Resources

How can we help ?

Fabrication Capabilities

- **Custom Metal Fabrication:** Cutting, bending, and assembling metal components for mining processing equipment and structures.
- **Structural Steel Fabrication:** Design and fabrication of structural steel for plant frameworks, supports, and platforms.
- **Process Equipment Fabrication:** Manufacturing of equipment such as crushers, conveyors, and separators tailored to processing plant requirements.
- **Piping Fabrication and Installation:** Fabrication and installation of piping systems for transporting materials and fluids within the plant.
- **Tank and Vessel Fabrication:** Design and construction of tanks, hoppers, and vessels for storing and processing materials.
- **Plate Work Fabrication:** Cutting, forming, and welding of plate metal for various components and structures.
- **Mechanical Assembly:** Assembly of mechanical components and systems, including conveyors, pumps, and drives.
- **CNC Machining:** Precision machining of parts and components for accurate fit and performance.

Fabrication Capabilities

- **Custom Pipe Fabrication:** Cutting, bending, and assembling pipes to meet specific design requirements.
- **Pipe Welding:** Professional welding of various pipe materials, including steel, stainless steel, and aluminum.
- **Pipe Fitting:** Precision fitting and joining of pipes, including the installation of couplings, reducers, and joints.
- **Flange Fabrication:** Manufacturing and machining of flanges for connecting pipes and equipment.
- **Pipe Cutting:** Accurate cutting of pipes to specified lengths and dimensions.
- **Pipe Bending:** Bending pipes to precise angles and radii for custom configurations.
- **Pipe Coating and Lining:** Application of coatings and linings for corrosion resistance and enhanced durability.

Fabrication Capabilities

- **Custom Metal Fabrication:** Cutting, bending, and assembling of metal components for tailored solutions.
- **Welding Services:** Professional welding for various metals such as steel, aluminum, and stainless steel.
- **Structural Fabrication:** Design and fabrication of steel structures, frames, beams, and platforms.
- **Pipe Fabrication:** Precision cutting, welding, and assembly of piping systems for industrial applications.
- **Sheet Metal Fabrication:** Forming, cutting, and shaping sheet metal for customized components.
- **CNC Machining:** Precision machining of parts using CNC technology for accurate and repeatable results.
- **CNC Milling and Turning:** Complex shapes and components created using CNC milling and turning processes.
- **Coating and Finishing:** Surface treatments like painting, powder coating, and galvanizing for corrosion resistance.
- **Prototype Development:** Fabrication of prototypes based on client specifications.
- **DNV Containers and CCUs:** Manufacturing of offshore certified containers and cargo carrying units (CCUs).
- **Workshop Fabrication:** Design and construction of mobile and offshore workshops.
- **Laser/Plasma Cutting:** Precision cutting for complex shapes and patterns in metal materials.
- **Testing and Certification:** Load testing and certification of fabricated units to industry standards.
- **Maintenance and Repair Services:** Repair and refurbishment of damaged or worn-out equipment.
- **Design and Engineering Support:** Collaboration with clients to create custom solutions based on specific requirements.
- **Project Management:** Full oversight of fabrication projects from design through to delivery and installation.
